SECOND PROJECT MANAGEMENT MEETING (PM2)

Strengthening Collaboration, Refining Methodology

The second Project Management Meeting brought together all partners of the Erasmus+ project “Empowering SEN Voices” to review progress, share experiences, and finalize the structure of the SENvoices Methodology—a key milestone guiding the next stages of implementation.

Partners discussed inclusive approaches for Science and Environmental Education, reviewed pilot plans, and aligned timelines for developing the S4ALL (Science for All) and ES4ALL (Environment Studies for All) toolkits.

Learning from Practice

Study visits to a special education school and a mainstream high school offered participants valuable insight into the Turkish educational context. Observing innovative teaching methods and inclusion practices inspired new ways to adapt the methodology to diverse learning needs.

Co-funded by the European Union

The Empowering SEN Voices project (2025–2027) has been co-funded by the Erasmus+ Programme of the European Union, through the Romanian National Agency for Community Programmes in the Field of Education and Vocational Training (ANPCDEFP). The content of this publication is the sole responsibility of the authors, and the European Commission and the National Agency cannot be held responsible for any use which may be made of the information contained therein.
